#### EPP Accountability Measures: Single EPP Detail

Select an EPP from the list on the left to see its performance levels on the three measures of the state accountability model. You can use the "EPP Directory" link if you are unsure of an EPP's abbreviation. For each measure, you can see the percentage of beginning teachers from the EPP who meet the measure's target. The colors of the bars identify the same subgroups across all of the graphs. To protect anonymity, results of 0% or 100%, as well as any results from subgroups of fewer than 10 beginning teachers, will display as missing. Click here for help reading the chart.

2016-18      2015-17
