\*Students must be licensed before being admitted into the program

+ State-by-state general disclosures are required by 34 CFR 668.43(5)(v) for academic programs designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation or is advertised as meeting such requirements. These disclosures refer only to educational requirements. In order to qualify for licensure other requirements may be needed in addition to education (exams, work experience, etc.). North Carolina participates in the National Association of State Directors of Teacher Education and Certification (NASDTEC) The NASDTEC reciprocity agreement ensures out-of-state education programs are equivalent to standards and guidelines of North Carolina's approved education programs. Those earning an NC professional teaching license may reciprocate this license to other specified states (shown as "Meets" above). Reciprocity does not guarantee that all areas of licensure will transfer directly from one state to another, and you may be awarded the closest comparable NC areas. <https://www.nasdtc.net/page/Interstate>
